

DIGICRAFT PRINTED PRICE GUIDE - JUNE 2010

DRUM AND FLATBED SCANNING

Flatbed Scanning Prices

Standard	Price
File size up to 10mb	\$10.00
From 11 to 30mb	\$15.00
From 31 to 50mb	\$20.00
From 51 to 80mb	\$25.00
From 81mb to 150mb	\$30.00
From 151mb to 200mb	\$40.00

Drum Scan Prices

Oil Mounted	Price
File size up to 10mb	\$25.00
From 11 to 30mb	\$30.00
From 31 to 50mb	\$35.00
From 51 to 80mb	\$40.00
From 81 to 200mb	\$45.00
201mb*	

*For creating files larger than 200mb we charge \$1.50 per 10mb (300mb scan = \$60, etc.).

Standard scan turn around is 1 business day. Drum scans 2 days. Volume scanning may require more time. All scanning orders greater than \$60 in value are archived to CD or written to your provided media at no charge. Orders less than \$60 will be charged \$7.50 for a CD or written to your media at no charge.

Discounts are available for large quantities of scans with extended turnaround times. Discounts are variable and dependent on whether or not there is a mix of film formats, resolution, flat art only, etc.

A Master Archive Scan should allow you to reproduce all of your film's original qualities at any scale you choose in the future. We only recommend oil-mounted drum scans for creating archive scans. Keep in mind the difficulty inherent in working with very large files, especially if you want to do your own Photoshop® work. Our research leads us to recommend:

4000ppi	80mb for 35mm	\$40.00
4000ppi	165mb for 645	\$45.00
4000ppi	225mb for 6x6	\$49.50
4000ppi	270mb for 6x7	\$55.50
2666ppi	360mb for 4x5	\$69.00
